

ABHISHEK KUMAR

Aspiring Data Scientist / AI-ML Engineer

Noida, Uttar Pradesh | +91 7676547141 | abhishekbth995312@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science (Data Science Specialization) student with hands-on experience building and deploying Machine Learning and Deep Learning models, including time-series forecasting and regression systems. Proficient in Python, SQL, and end-to-end ML pipelines using Flask and FastAPI. Seeking to apply strong analytical and problem-solving skills in a Data Science / AI-ML role.

EDUCATION

B.Tech in Computer Science and Engineering – Data Science Specialization

Lloyd Institute of Engineering and Technology, Greater Noida | 2023 – 2027 | CGPA: 7.3

TECHNICAL SKILLS

- **Languages:** Python, Java, SQL
- **ML / DL:** Machine Learning, Deep Learning, Scikit-learn, TensorFlow, Keras
- **Data Analysis:** NumPy, Pandas, Matplotlib, Seaborn
- **Tools & Frameworks:** Git, GitHub, Flask, FastAPI
- **Databases:** MySQL, MongoDB
- **Core CS Concepts:** Object-Oriented Programming (OOP), Database Management Systems (DBMS)

PROJECTS

Stock Price Prediction System | Python, TensorFlow/Keras, LSTM, Pandas, NumPy, Matplotlib, Flask, HTML, Git, [GitHub](#)

- Built an LSTM-based time-series forecasting model to predict future stock prices using historical market data.
- Performed data preprocessing and feature scaling using MinMaxScaler, and prepared sequential time-series data for LSTM training.
- Developed a Flask-based web application to integrate the trained model and provide stock price predictions through a simple user interface.

Mental Health Score Prediction System | Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Random Forest Regression, Feature Engineering, FastAPI, Joblib, [Live\(Render\)](#) | [GitHub](#)

- Developed an end-to-end Mental Health Score Prediction ML system using student social-media and lifestyle data, performing EDA, data cleaning, feature engineering, and statistical analysis.
- Built and optimized a Random Forest Regression pipeline with ColumnTransformer, StandardScaler, Log Transformation, Ordinal Encoding, and One-Hot Encoding to predict mental health scores from behavioral and lifestyle factors.
- Deployed the trained ML model as a FastAPI-based web application, integrating the serialized .pkl model to provide real-time mental health score predictions through a user-friendly API/web interface.

WORK EXPERIENCE

Virtual AI Internship – IBM SkillsBuild | September 2025 (6 Weeks)

- Completed a 6-week virtual internship focused on Artificial Intelligence fundamentals, covering core concepts of Machine Learning, Deep Learning, and their real-world applications.

CERTIFICATIONS

- IBM SkillsBuild – Virtual AI Internship Certificate (September 2025)

ADDITIONAL DETAILS

- **Languages:** English (Fluent), Hindi (Native)
- **Interests:** Machine Learning Projects
- **Availability:** Open for Internships and Live Projects
